The account that allows you to set aside pre-tax money to save on daily transportation and parking expenses for your work commute.

Why You'll Love It

Ease of Use: Your CRA is connected to your Ameriflex Debit Mastercard®, which you can swipe to pay for transit and parking, or add to transportation apps such as SpotHero.

Cost Savings: Your CRA helps you to save up to 30% on work-related commuting and parking costs, and your funds roll over month-to-month.

Flexibility: Unlike other spending accounts, the CRA allows you to change your monthly contribution at any time if your commuting needs shift.

Choice: The CRA comes in two options: a parking account (PKG) and a transit account (TRN). Parking accounts cover parking expenses only when they are used to park at or near your place of employment, and Transit accounts include expenses to get you to and from your place of employment only. You can choose to enroll in one or both accounts.
