

# Health Reimbursement Account

## WHY YOU'LL LOVE IT

The account is funded only by your employer to help pay for medical expenses.

You don't pay taxes on the money in your account.

**Your employer will let you know what expenses are eligible and how much money they will put into the account during your open enrollment period.**

## IS IT COMPLICATED TO USE?

Not at all! Your employer decides what expenses are eligible. Once you make a purchase, you will submit documentation to identify the expense was within your employer's requirements.
